

## CIS Industry Certification Equivalency List

College credit may be given for earned industry certifications (see list below). Student must provide proof of completion in order to receive credit. Testing and/or a personal meeting may be required. For questions, call the Business and Information Technologies division at (810) 989-5628. If other certifications have been earned, contact division for articulation review. Please check with an advisor for complete details on industry certifications and equivalent Computer Information Systems courses.
